

NOT A RIPPLE

THE MANAGER GONE

Atlanta Stood the Gate City Bank's Failure Splendidly.

HER INSTITUTIONS ARE STRONG.

Business Circles Were Not Excited and Not Affected by Locking Up Three Quarters of a Million.

There is no novelty in the observation that it is an ill wind that blows nobody good. Frequently the old saying has a fresh exemplification and Atlanta has just furnished one.

When the Gate City bank closed its doors two weeks ago tonight, there was a reasonable apprehension that some bad effects might result to the city's commercial interests in one form or another.

Fortunately, nothing of the kind has occurred and on the contrary the strongest evidence has been given of the stability of Atlanta's banking institutions.

There has not been a ripple on the commercial sea and aside from the Gate City bank itself, no other financial or commercial house has felt the slightest shock. This is remarkable and shows the strength of the city's banks and business men.

The banks are truly gratified that there was no serious turr. It would not have been surprising in a community to have seen, under similar circumstances, a run on the banks and possibly the embarrassment of some business houses.

The closing of the Gate City bank's doors locked up \$300,000 and since the examiners took charge, probably \$100,000 or more has been collected. Certainly, \$750,000 has been tied up, absolutely withdrawn from circulation for the time being. The withdrawal of such a large sum is calculated to make money very tight in most communities of Atlanta's population. But Atlanta has great wealth and her business men have confidence in their home institutions.

Instead of a run, the deposits in the other banks have increased. The leading bankers say that the test has not shaken the city in the slightest. They regard the city as stronger before the financial world today than it was prior to the defalcation and the closing of the Gate City bank.

"No, there has not been a ripple. Atlanta's banks are really stronger today than they were two weeks ago," said Captain Robert Lowry, president of the Lowry Banking Company. "The deposits in the Gate City bank have not been available for business. Practically \$500,000 to \$750,000 has been withdrawn from circulation but there was ample credit here for the city's business. Not a single depositor called for his money on account of shaken confidence. I expect every bank in the city has received a good sum in fresh deposits immediately after the closing of the Gate City bank's doors. The customers of all the banks came up with additional deposits. This is one of the good points about the leading business men. They are loyal and not scared. They are brave and while there was really no ground for alarm, some business men might have got frightened and caused trouble for their banks."

"The bank deposits are growing rapidly all the time. New people are coming to this city to enter business and new customers come all the time from neighboring towns."

"No business in the world responds more readily to the change of general trade than banking. It is very sensitive. The banks feel the pulse of trade every hour. They can tell as quickly and surely as the physician can what the pulse of the patient's wrist. And it is the observation of every banker in the city, I believe, that confidence has not been shaken and business has not been disturbed in the slightest."

"Indeed, Atlanta has cause to congratulate herself on the way she stood the test of the strain on her banking institutions. The past two weeks," said Colonel Maddox, of the Maddox-Rucker Banking Company. "We all regret the disaster of the Gate City bank, but it is not the result of a lack of confidence on the part of the public. There was patronage enough and the failure of the bank is not a black eye on the city. In the past there were too many banks here. The Gate City's depositors took the disaster splendidly. They saw their money tied up, but they did not panic nor did the depositors of the other banks. It was a severe test but the banks came through it in fine style. Atlanta has reason to boast of her strength now. Our neighboring cities admire the pluck and confidence of our people. A few years ago when there was a bank failure, the depositors withdrew their money from all the banks and the strain which followed was terrible. All passed through it all right. But this time there was no such timidity on the part of the business men or the general public. Atlanta's banks have shown a stability from two just after the war, we have now sixteen and their business in increasing every day."

"There is not another city of Atlanta's class which could go through a trial such as we have seen the past fortnight without considerable excitement in financial circles," said Mr. Charles W. Smith, vice president of the Capital City Bank. "At this time the balances of the merchants are not heavy. Business men, as borrowers, are not alarmed. Their deposits are not at the highest point just now, but all the banks hold large deposits of people not in active business. These, as a rule, are the most secure when times are panic. They draw their money out and hide it away. But there was nothing of this sort done after the closing of the Gate City bank. Nobody was alarmed. The condition of the other banks, and they came through better than they expected. Not a ripple was perceptible in commercial circles. The New York banks did not show the least concern, and the collapse of the Gate City has served to show our strength."

Warrant for the Manager of the National Cash Register

IN THE CITIES OF MACON AND SAVANNAH

Turned Over to the Atlanta Police Yesterday—Is Reported About \$1,000 Short—Is Well Known Here.

William Bluet, manager of the offices of the National Cash Register Company in the cities of Savannah and Macon, has defuncted in his accounts with his employers, and has skipped the country.

Yesterday afternoon Mr. Charles H. Behre, manager of the company's office in Atlanta and manager for the state, appeared at police headquarters and asked that the police departments throughout the south be telegraphed, and asked to arrest Bluet.

He was told that telegrams would be sent if a warrant was sworn out to guarantee that a case would be made, and a few minutes later Mr. Behre had gone before Justice Bloodworth and made the required oath and secured the necessary warrant, charging his erring manager with larceny after trust.

Telegrams were then sent. The charge given was that named in the warrant—larceny after trust. Charlotte, N. C., to which place it was thought that Bluet had gone, was telegraphed a full and accurate description of the runaway manager. Late yesterday afternoon a telegram was received from Charlotte, stating that a man, giving his name as Cowen, but who was thought to be Bluet, was in that city. The telegram also stated that there was another man in that city who might answer the description if Cowen wouldn't do.

The chief of police of Charlotte was telegraphed more fully concerning Bluet, but no answer was received to the last communication. It is thought that Bluet is making his way to New York. Manager Behre feels confident that Bluet will be found in Charlotte or in the near vicinity of that city.

Bluet's shortage is said by Mr. Behre to amount to about \$1,000, and it may go higher.

Mr. Bluet, the missing manager, has been with the National Cash Register company for four years, and was looked upon as one of the safest agents the company has anywhere. He was a fine business man; did valuable work in pushing the company's business, and was never backward in making returns.

He was about forty-five years of age and has a daughter married. He managed the office at Savannah and Macon, and spent his time between the two cities. He was well known in both places and in Atlanta as well. He frequently paid visits to Atlanta and made many acquaintances among the business men of this city.

Mr. Behre, the manager, has no disposition to push the case against Mr. Bluet if a settlement of the terms of the contract and the shortage made good. His action in swearing out the warrant against Bluet was to protect the interests of his company.

The warrant against Bluet is now in the hands of the Atlanta police department. The days of colds and Dr. Bull's Cough Syrup are at hand. Better buy a bottle.

IT WILL BE DECIDED TODAY.

The Time for Holding the Election in Regard to the Issue of Bonds.

There will be a special meeting of the county commissioners this morning at 10 o'clock.

The purpose of the meeting is to appoint a day for holding the election in regard to the issuing of bonds for the new city and county buildings.

Other matters that are germane to the issue will be discussed, and all of the necessary details will be arranged.

It has been agreed by the commissioners to fix the sum at \$300,000. They will be authorized to cover all the contemplated improvements and will insure to the county a public building that will be a source of pride not only to the present but to the next generation.

When the board of commissioners adjourned last Wednesday morning it was decided to call a special meeting at 10 o'clock today and settle all the preliminary details in regard to the matter of the new city and county buildings.

The issue is not far distant when the carpenters will be at work and the citizens of Atlanta will have the satisfaction of seeing the work commenced.

REDWINE'S BANK BOND.

It Has Not as Yet Been Paid by His Bondsman.

Lewis Redwine had a \$10,000 bond with the Fidelity and Casualty Company of Atlanta, indemnifying the Gate City bank for the faithful performance of his duty to that institution.

Mr. Alfred G. Coale, as the legal representative of this well known company, has been in Atlanta for several days looking into the status of the defalcation. He completed his business yesterday and returned to New York.

To a Constitution representative who saw him yesterday he stated, on being asked what would be the nature of his report: "I have been here a week," said he, "and know absolutely nothing more than when I have looked into the situation as far as I could, and will report to my company just what I could find out, though this is very indefinite."

The bond has not yet been paid and will not be until the bank examiners make their report to the comptroller of the currency. There has been no official announcement of the amount of the defalcation yet and, of course, no step will be made toward the payment of the bond until the bank examiners make their official report to the government.

It seems that the matter is involved in too many complications to make the report for which Mr. Coale came to Atlanta. Until the bank examiners report, therefore, nothing will be done.

IT WAS A BUSY DAY.

The Ordinary Disposes of a Large Amount of Work Yesterday.

Yesterday, being the first Monday in the month, was the ordinary busy day. Many wills were probated, several guardians and administrators were appointed, and the usual amount of work transacted on the first Monday of the month, was performed by the ordinary.

The will of the late Captain J. G. Reynolds was admitted to probate in solemn form, having been probated in common form several weeks ago.

The will of the late Mr. G. W. D. Cook, who died suddenly in Texas about two months ago, was also admitted to probate in solemn form.

Of these two estates the one of Captain Reynolds is much the larger. The value of his property, the larger part of which is located in this country, is estimated at \$100,000 and may possibly run over that amount. The estate of Mr. Cook will not exceed a few thousand dollars.

Several administrators were appointed to wind up small estates, and one or two guardians were appointed for minor children.

Delinquent parties were cited to appear before the ordinary and account for their failure to make returns at the proper time, as required by law.

THE NEW YORK MARKET.
The day on the floor of the New York Stock Exchange.
NEW YORK, March 6.—The stock market today was weak from the start to the finish. The rallies that occurred were of short duration and of little consequence. The final quotations, as a rule, were at or near the lowest point of the day, and showed losses from the previous day's closing figures.

Industrial stocks in a downward movement, owing to the emphatic declarations against trusts by President Cleveland in his inaugural address. The market was also influenced by the news from the west of the growing depression among railway employees and likelihood of strikes, as well as the falling rate of exchange of currency to the interior, continued shipments of gold to Europe and loss in bank reserves, combined to exact high rates from those requiring funds. Rates for all loans were at 10 to 12 per cent, and the bulk of the business was at 10 to 12 per cent. The apprehension that borrowers will have to pay high rates for money, and the consequent induced free selling of stock for both long and short accounts. Consolidated Gas and American Steel and Wire were the most active. The former advanced 1/2, the latter 1/4. Lead yielded 2 1/2, preferred 3, National Cordage 1/2, American Cotton Oil 1/2, Manhattan 2 1/2, Reading 2 and New England 1 1/2. In the general list the market closed weak in tone. Sales listed stocks, 288,000; unlisted, 44,000. Treasury balances, \$2,500,000; currency, \$2,400,000.

Money on call active and higher, ranging from 8 to 10, closing at 10; 30 day bid; prime mercantile paper 6.

Sterling exchange, heavy; posted rates 48 1/2; 48 1/2; commercial bills 48 1/2; 48 1/2.

Government bonds steady.

State bonds quiet.

Railroad bonds weak.

FREE TO THE SICK

For One Entire Month—The Great German,

DR. G. KARL VIRCHOW SCHICK,

Has Leased the Entire Building, 100 N. Pryor Street, Atlanta, Ga.,

FOR ONE YEAR, AND WILL OPEN

To the Sick Thursday, March 23, and All Those Who Call the First Month Will Receive Consultation, Advice, Examination and Treatment for a Full Month Free of Charge—Surely This Is a Golden Opportunity.

For the purpose of extending his already wide-world popularity, and with a desire to consent to the many earnest requests made from time to time by the friends and admirers of this progressive system, Dr. G. Karl Virchow Schick has leased the entire building, 100 North Pryor street, Atlanta, and will open the same to the public Thursday, March 23, 10 o'clock a. m., at which time he will give to all those who desire consultation, advice, examination and treatment for an entire month free of charge. Thus giving sufferers from all forms of chronic diseases, personal attention, and thereby all the advantages of this new system, which has worked such marvelous cures in New York and surrounding country. Although the time and expense to him in giving this free treatment will cost him at least five thousand dollars, yet he feels that the number he will treat will be so large, the good he will do will cover so large a field, that the advertisement will be double what could be obtained with the expenditure of \$10,000 in any other way. They also hope to bring to the notice of all invalids their elegant institute, as well as their special system of practice. All who are afflicted with that every patient so treated will appoint themselves a committee of one to state to all their friends the results obtained in their individual cases by the German system. So the rich and poor may come daily from 10 a. m. to 1 p. m., and 2 to 4 p. m., and from 7 to 9 evening, for the entire time as above stated. They treat all female troubles by the German method, which does away with all speculum examinations, rings, pessaries and local treatment.

They also desire to impress upon all men who are suffering from the errors of youth that they are the sole importers of the justly celebrated Hindoo remedy so well favorably known in the old world, and which Agnecial Tabloid Method. They will guarantee an absolute cure in all cases taken.

All desiring to test the system will have such an opportunity for one month free of charge.

They earnestly invite you to come, see and examine for yourself their institution, advantages, appliances and success in curing the chronic ailments of suffering humanity. Their patients are numbered from all parts of the world, and so remarkable has been their success that we wonder at the superior qualifications of the physicians who can form a strictly scientific knowledge of the structure of man, tell disease at a glance, without asking questions, looking at the tongue or feeling the pulse.

No explanation is necessary from the patient, no previous knowledge of the case. Every ache, pain, or discomfort, the feeling pointed out and described better than the patients can themselves. He locates, describes, understands and explains disease at a glance, history, its tendency, progress and termination, teaching in his consultation the patients' inherent power over all their weaknesses and debilities which lead to all the various diseases of the human system, and gives the proper treatment necessary to a perfect cure. No person should doctor any longer or take any more medicine before consulting him. Not only will they be surprised at his wonderful knowledge of disease, his plain, concise explanation of every cause and effect, but at the rapidity with which he relieves and cures the diseases of his patients by his very progressive system. The only system by the aid of which, coupled with his knowledge of the structure of man and his experience with the diseases of his patients, and its action upon the functions of the body, he demonstrates the real cause of his trouble and points to an absolute relief and cure.

HUNDREDS CURED ANNUALLY.

Following is a brief synopsis of cases which have been successfully treated by Dr. Schick during the past year, commencing January 1, 1892, and ending December 31, 1892. This list does not include applicants for treatment who were pronounced by them incurable, but is an accurate record transferred from their books of curatively performed, guaranteed, absolutely and implicitly correct in every particular:

WITHOUT OFFICERS.

The Reports Read at the Annual Meeting
Yesterday Afternoon.

A SENSATIONAL INCIDENT OCCURS.

Mr. Jack J. Spalding Declares That Certain
Moneys Were Expended With-
out Authority of Law.

The Piedmont Club is without officers,
and will remain in that condition until a
special meeting, which will be called for
next Thursday afternoon at 4 o'clock.

The annual meeting, the main purpose
of which was to elect the club officers for
the ensuing year, did not materialize in the
smooth manner that was anticipated.

The reports of the president and treas-
urer were read at the meeting yesterday
afternoon, which took place in the office of
Mr. Charles Arnold, secretary of the Pied-
mont Exposition Company, and were about
to be adopted when an unlooked for hitch
occurred.

It appears that during the year just past
that certain expenditures, looking in every
instance to the improvement of the club,
were made in violation of a by-law in the
constitution of the organization. The
amount expended was in the neighborhood
of \$1,000. Just after the reports of the
officers were read, Mr. Jack Spalding se-
cured the floor and proceeded to state in
the manner in which the money had been
spent, as it was in direct conflict with the
constitution.

"Gentlemen," said Mr. Spalding, "before
we adopt the report I wish to call attention
to the fact that the money was expended
in direct opposition to the constitution of
the club. It is provided for in the by-laws
that no indebtedness shall be made by the
officers of the club unless the money is in
the treasury. If money is to be expended,
when the occasion warrants it, and there
is no money in the treasury, the members
of the club should have a voice in the mat-
ter." Finally, after several motions and
substitutes, Mr. Spalding moved to table
the reports until a special meeting was
called. Mr. Kingsbury moved, as a sub-
stitute, that the meeting adjourn until the
members could be notified that a meeting
would occur on Thursday afternoon at 4
o'clock to pass upon the reports of the offi-
cers and elect new officers. Mr. Humphreys
Castleman is president, and Mr. John
Grant, vice president. These gentlemen
will very probably be re-elected.

Spalding's medicine and Hood's Sarsaparilla are
synonymous terms, so popular is this great
medicine at this season.

Angostura Bitters says a long time suffer-
ing from indigestion, thoroughly cured me.

A FAMOUS SEED HOUSE.

The Great Garden and Flower Seed Estab-
lishment of W. Allee Burpee & Co.

One of the most famous garden and flower
seed establishments in the world is that of
Messrs. W. Allee Burpee & Co. of Phila-
delphia, whose farms are at Doylestown, Pa.

The Fordhook farm, on which their
immense seed-growing beds are situated and
where their immense variety of flowers and
bulbs are grown, is situated near Philadel-
phia, and is probably the largest farm of its
kind in the world. Standard and
finest stock breeding is also a part of their
business.

Their illustrated catalogue for this year
is ready for distribution, and can be had by
addressing W. Allee Burpee & Co., seed-
men, Philadelphia, Pa. The book is a
handsome one, finely illustrated and in its
pages can be found seeds, plants, bulbs, and
flowers of almost every known description.
The firm is an old, established and thor-
oughly reliable one, and those desiring anything
in their line will do well to write them for
their catalogue and prices.

A Long Face
—very good
cause for it.
She does her
washing and
cleaning without
Pearline;
and her work
is like her
face—just
twice as long as it ought to be.
That's not the worst of
it, her work isn't as well done.
Tires her out, and hurts
whatever she washes with the
rub, rub, rub that wears and
tears. Pretty hard, isn't it?
Millions of women think so.
They prefer to save time,
labor, clothes, and money by
washing with **Pearline.**

Beware Peddlers and some unscrup-
ulous grocers will tell you
this is as good as "or" the
same as **Pearline.** IT'S FALSE—**Pearline** is never
peddled; if you grocer sends you an imitation,
be honest—send it back. 321 JAMES PYLE, N. Y.
